Digital Flexographic & Letterpress Imagesetter

H E I G H T S

Exclusive world wide distribution by the Heights Group

ANJO

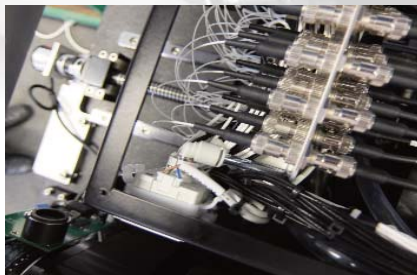

Flexpress^{cp}

Introducing the new Anjo range of Digital Flexographic & Letterpress Imagesetters from the Heights Group. The range includes A2 & A3 format machines designed specifically for the label and narrow web packaging industries. The range of Anjo Digital Imagesetters offer superior return on investment with the highest quality image reproduction.

At the heart of the Anjo Flexpress is the philosophy of simplicity. Operation, maintenance & construction have all been designed with simplicity in mind. Operation of the Anjo Flexpress is simple and easy to use.

The Anjo Flexpress uses a unique dust extraction system built into the optics head to optimise plate production productivity. Low component failure rates & low maintenance costs further increase production productivity.

High quality components and a base frame designed to eliminate vibration provide the optimum, stable environment required for years of quality plate production. The Anjo Flexpress can be supplied with a RIP & plug-in option depending on requirements.

General Specifications	Anjo Flexpress 42	Anjo Flexpress 60
Drum Type	External Drum	
Max Plate Size	400 x 300mm	600 x 420mm
Plate Thickness	0.15 ~ 2.5mm	
Type of Laser	Fibre optic, 830nm 32 diode array	
Resolution	2540 dpi (100ppm), 150~200 lpi	
Data Input	1 Bit TIFF	
Interface	100/1000 Mbps	
Power Supply	1ph+N+PE 220VAC 30A 50/60Hz	
Dimensions (WxHxD)	900 x 1085 x 735mm	986 x 1115 x 730mm
Weight	300 kg	350 kg
